

Site Navigation

- Click on Design Studio
- Click “Site Navigation”
- Click a menu item to edit properties
- (For example) Click About Us
- Change the “About Us” text in the top box to “Why Promotional Products?”
- Select the “Type” (for example) choose “Page”
- Click the 3rd dropdown for “Detail” and choose the page to link to
- Save
- To move the position of each navigation link, drag and drop the link on the left side of your page
- To create a link with product options, click “Product Search”
- (For example) Change the display name to “Top Product Picks”
- Click the “Type” drop down and (for example) choose Text (this eliminated the detail option since the link will be static text on the live site)
- Save
- Click “Add” to create a 4th drop down menu item from the “Top Product Picks” text link
- Choose (for example) Featured Products and choose which set to display
- Change the link title to what you want it to display on the live site
- Save
