

Building Custom Products

- Click “Features”
- Click “Custom Products” from dropdown
- Click “Create New Custom Product”
- Fill out all required information
- Upload product image
- Create product number
- Add any necessary additional information
- If you need to group your product, (for example), add all available sizes for a T-shirt and give each size a different price
 - This will still be displayed as one product, but with separate pricing
- Click “Save Update” to save or click “Save and Publish” to make your update live
