

News and Video

- Click “Design Studio”
- Click “News and Video”
- Choose whether you want editorially selected news articles to be delivered to your home page or not
- Choose whether to have ASI produced and client safe videos automatically added to your home page or to add your own YouTube! Video, or to not display videos at all
- If you feature your own video, type or paste the URL into the box
- Save
- Click Industry Page
- Choose whether you want to feature a page for Industry News, Video and events or not
- Choose whether you want to allow the system to choose the videos or if you want to add your own
- Click “Add Video” tab if you want to add your own
- Type or paste the URL into the box, and add a Headline
- Click Add
- Save
- Once your page refreshes, left click the video you uploaded and drag it into the selected videos box on the right
- To remove a video from the Selected Videos box, click the video and click remove
